1. There will be four programming assignments, one final programming project and five written assignments (Due every Friday).
2. There will be one mid term exam (May 3, 2002, 9:00-9:50am) and one final exam (June 12, 2002, 8-10am).
3. Final score will be calculated as follows: Written Assignments: 15%, Programming Assignments: 25%, Final project 10%, Mid-term Exam: 20%, Final Exam 30%.
4. All assignment solutions should be neatly typed. No hand-written assignments will be accepted.
5. Assignments should be submitted at the *beginning of the lecture (9:00am-9:10am) on the due date*. Any later than that time would be considered as late submission.
6. Only one late assignment submission will be allowed. Second, third and fourth late submissions will be deducted 25%, 50%, and 75% of the points got by the student in the respective assignments.
7. This course follows **"Honor System"**, where student would not give or take help in their assignments and exams, and is enforced by the students themselves, rather than the instructor. **Any student found giving or taking help in assignments or exams would be failed in the course.**
8. Written assignments can be discussed among students, but should be written individually in your own words.
9. Instructor reserves the right to modify, delete or add any rule related to this course, including the ones given above.
10. Instructor's decision and interpretation of the rules are final.
